

HOME & LIVING

E-COMMERCE WITH ALIBABA

Chinese consumers are demanding beautiful homes - and that's where Danish design companies come in. Danish-Chinese Business Forum is hosting this inspiring afternoon with Alibaba - the world's largest retailer - to help you market your products in China.

Alibaba is the foremost expert in Chinese consumers, and at this event, they'll teach you how to use online platforms to get your products sold in China. The team will address challenges commonly faced by Danish companies and help you get ready to use e-commerce to target Chinese consumers. We will also hear from DCBF member Fossflakes about their experiences with e-commerce in China.

When you sign up, you can choose to schedule a 1-on-1 "Getting Started" session with Alibaba directly following the event.

The event is kindly hosted by Gorrissen Federspiel in their beautiful offices facing Tivoli Gardens.

You can click the pictures below to learn more about the featured speakers.
